## TERMINAL SANITISER

A highly concentrated biocidal rise which combines effectiveness with an ability to kill most forms of bacteria, mould and algae. Designed to also remove any residual grease, oil and dirt whilst treating the bacteria and spores which can grow unsightly mould etc. Ideal as a concentrate for diluting with water to produce a range of effective sanitising solutions.

- Conforms to BS EN 1276:1997
- Easily and gently removes dirt and grime
- Does not contain ingredients which accelerate metal corrosion
- Safe on paintwork, metal surfaces, glass and rubber
- Ideal for hot or cold pressure wash machines
- Effective in hard and soft waters
- Does not contain perfumes or dyes

### Application

**Surface Cleaning** : Remove all loose surface debris, apply at up to 200mls of product to 600mls of water in a Northern Environmental C.O.S.H.H trigger spray. Apply under low pressure spray or with a swab, allow a few minutes contact time before rinsing with clean water. Retreat periodically.

**As a Concentrate** : 1 part concentrate to 3 parts water will produce a solution rated at above a QAP 30. Therefore a dilution of this solution at 30:1 will still kill most bacteria.

**Available in 5, 25, 30, 205 and 1000 litre plastic containers**
