CLEANER SANITISER +

Originally developed in Scandinavia this unique combination of non tainting surface active agents (for catering and food preparation areas), sequestrants, alkaline builders and bactericide was designed to clean and sanitise in one operation. This **Environmental** formulation gives an enhanced performance on greasy surfaces where the specially selected blend of surfactants combine with the bactericide to produce a clean germ free environment.

- Effective at higher dilutions
- Easily and gently removes protein and food residues
- Does not contain perfume or dyes – FOOD SAFE
- Safe on paintwork, metal surfaces, glass and rubber
- Ideal for heavily soiled areas, floors, walls etc.
- Effective in hard and soft waters
- Contains powerful bactericide – conforms to BS EN 1276:1997
- Dyed red for easy C.O.S.H.H identification
- Concentrated formula dilute and use with N.E.S Trigger spray.

Application

General Cleaning : For heavy duty cleaning dilute with cold water at 200ml chemical to 600ml water using a COSHH regulated trigger spray. Mop or wipe surface to be cleaned and then rinse with clean water.

For lighter operations, the product can be diluted up to 100:1 in warm water. It is advisable to allow 5 minutes contact time to ensure all bacteria have been killed.

Pressure Washing : Use via dilution system on machine with steam if possible. Finally rinse with clean water jet.

Available in 5, 25, 30, 205 and 1000 litre plastic containers
